Education

Shambhunath Institute of Engineering and Technology-(B.Tech) 2025
Branch: Computer Science and Engineering *Percentage: 79.8*

Government Polytechnic Mirzapur-(Polytechnic) 2022
Branch: Information Technology *Percentage: 81.3*

Skills

Languages: C, Python, JavaScript, HTML/CSS, PHP.
Tools: GitHub, VS Code, PyCharm.

Projects

College Management System | *HTML, CSS, JavaScript, Bootstrap, jQuery, PHP, and MySQL* Link

- A full-stack College Management System with features including user authentication, role-based portals, attendance management, online payments, and library management.
- Collaborated with a team of four on the final-year B.Tech project.

Quick Shop | *HTML/CSS, JavaScript, PHP, Xampp Server, MySQL Database*

- Developed an e-commerce website for a clothing store, incorporating user registration and login functionality
- Collaborated with a team of four on the final-year Polytechnic project.

Employee Management System | *HTML, CSS, PHP, Xampp Server, MySQL Language* Link

- Developed a full-stack web application to automate employee data management
- Integrated functionalities such as search, save, modify, delete and clear buttons.

Experience

Trintiym AI Analytics LLP | *AI Analytics Intern* April 2025 – July 2025
12-week internship at Trintiym AI Analytics LLP. During this exciting journey, I had the opportunity to dive deep into the world of Artificial Intelligence, Machine Learning, Prompt Engineering, and Large Language Models (LLMs).

Vaultofcodes | *Web Development Internship* Sep-Oct 2024
45-Day internship program at Vaultofcodes. During my Web Development internship I created a Portfolio Page for EditKaro.in Agency in my Mini Project and finally made a responsive website for EditKaro.in which consists of Home, About Us, Contact Us, Portfolio pages in it.

DataTeach.ai | *Machine Learning Internship* Nov-Dec 2024
2-month internship in Machine Learning at DataTeach.ai. During this immersive program, I gained hands-on experience and deepened my understanding in several key areas:

Mastered basics of Python programming, explored Python's data structures and control flow statements.

Developed proficiency in file handling and understanding OOP concepts, delved into data analysis and visualization using Python libraries, acquired essential skills in SQL for data manipulation and enhanced understanding of statistical methods for data analysis.

Softpro India Computer Technologies (P) Ltd | *Summer Trainee* 2022
45-Day Online Summer Training on Python with Django and gained hands-on experience in Python and Django through structured online training conducted at PolyPrep.

Certifications

Python Programming Course of 2 months | *Techgyan (2023)* 2023
Completed training in Python programming covering core concepts, problem-solving, and programming fundamentals.

Diploma in Web Development | *STP Computer Education* 2025
Learned SQL fundamentals including database management, queries, joins and normalization concepts.

SQL Micro Course of 30-Days | *Skill Course E-Learning Platform* 2025
Learned SQL fundamentals including database management, queries, joins, and normalization concepts.

Publications

Cognitive Intelligence for Smart Grid Management | *Gradiva Review Journal* Link
Published a review paper on smart grid management using cognitive intelligence techniques,
focusing on AI-based energy optimization, automation
and intelligent decision-making systems in modern power grids.

Applications of Wireless 5G, 6G and Internet of Things Technologies | *Taylor and Francis Group* Link
Published a research paper focused on the applications of 5G, 6G, and IoT technologies, highlighting advancements in wireless communication, smart connectivity, automation and next-generation network systems for modern digital infrastructure.

Green Internet of Things | *Taylor and Francis Group* Link
Published a research paper on Green Internet of Things (Green IoT), focusing on energy-efficient IoT technologies, sustainable communication systems and environmentally friendly approaches for smart and connected devices.

Achievements

Secured First Division with Distinction in B.Tech.

Secured First Division with Honours in Polytechnic.

Hobbies

Playing Cricket and passionate about coding.
